14	Clearing site and levelling ground	L. S.	...

M. RAMAIYA,
Executive Engineer,

KADUR DIVISION.

Dated 1st July 1929.

1. Notice is hereby given that sealed tenders will be received at the Office of the Executive Engineer, Kadur Division, up to 1st August 1929, for closing the leak in the Madag tank bund, Kadur Taluk. An approximate estimate of quantities is given below. These quantities are not guaranteed. The work should be completed by the end of February 1930.

2. The plans, detailed estimate and conditions may be seen at the Executive Engineer's Office at Chikmagalur between the hours of 11 A.M. to 5 P.M. on (office days).

3. Tenders should be submitted on printed forms which may be obtained from the Executive Engineer. The tenders should be accompanied by a statement in the form given below, showing the rates at which the different items specified will be executed.

4. Each tender must be accompanied by a deposit of Rs. 250 in cash or Government Promissory Notes as earnest money, and be superscribed "Tender for closing the leak in the Madag tank bund, Kadur Taluk," in default of which tenders will be rejected.

5. The final acceptance of any tender will rest with the Superintending Engineer, Shimoga Circle, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. Within eight days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond; in default of which, his tender will be considered cancelled, and his earnest money will be forfeited.

7. The name of the successful competitor, whose tender has been accepted, will be posted on the notice board in the Executive Engineer's Office in due course. No enquiries regarding the acceptance or rejection of a tender will receive any reply.

8. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

Approximate quantities for closing the leak in the Madag tank bund Kadur Taluk.

No.	Items of work	Per	Quantity	Rate	
				In figures	In words
1	Earthwork excavation in the centre of bund ordinary soil.	C.yd.	3,094		
2	Filling the trench with good jelly for jelly drain	,,	288		
3	Plugging the holes with puddle ...	,,	100		
4	Earth filling in the trench including watering and tamping in layers.	,,	2,760		
5	Rough stone revetment with jelly backing ...	,,	74		
6	Removing the revetment in front and resetting after examining the leaks.	,,	340		
7	Jungle clearing with roots	Lump sum			
8	Gravel backing to revetment in front 12" thick	C.yd.	113
